Dear Vicky,

Fyfield and Tubney Parish Council acknowledge receipt of your letter dated 1st November 2018 concerning your proposed development on land East of Kingston Bagpuize but situated entirely within this parish.

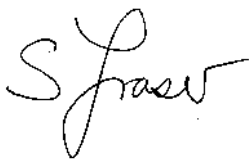

The Parish Council would like to draw your attention to the Inspector's Post Hearing Letter dated the 30th October 2018.

In Paragraph 1 he states “.. *I have concluded that the plan does not meet the tests of soundness without some modification. As an initial step, the proposed allocation of the Dalton Barracks/Abingdon Airfield site ... needs further consideration. Following this and depending upon the outcome, there are a number of other matters where modifications to the LPP2 will be required but these will be set out in due course.*”

Paragraph 28 reiterates “*There are a number of other matters where modifications will be required to achieve soundness of the plan.*”

The Parish Council feels that it is premature to assume that the proposed site in our parish will not fall under the statements within these paragraphs and will vigorously oppose any planning application submitted before the Inspector issues his final report.

Yours sincerely,

Dr. Stephen Fraser
Clerk, Fyfield & Tubney PC.
